

Industrial decarbonisation and CBAM – The role of CCIS in helping companies through green transition

Ana Raicevic, Secretary of Association of Metalworking
and Power Industry

May 29th 2024, Thessaloniki

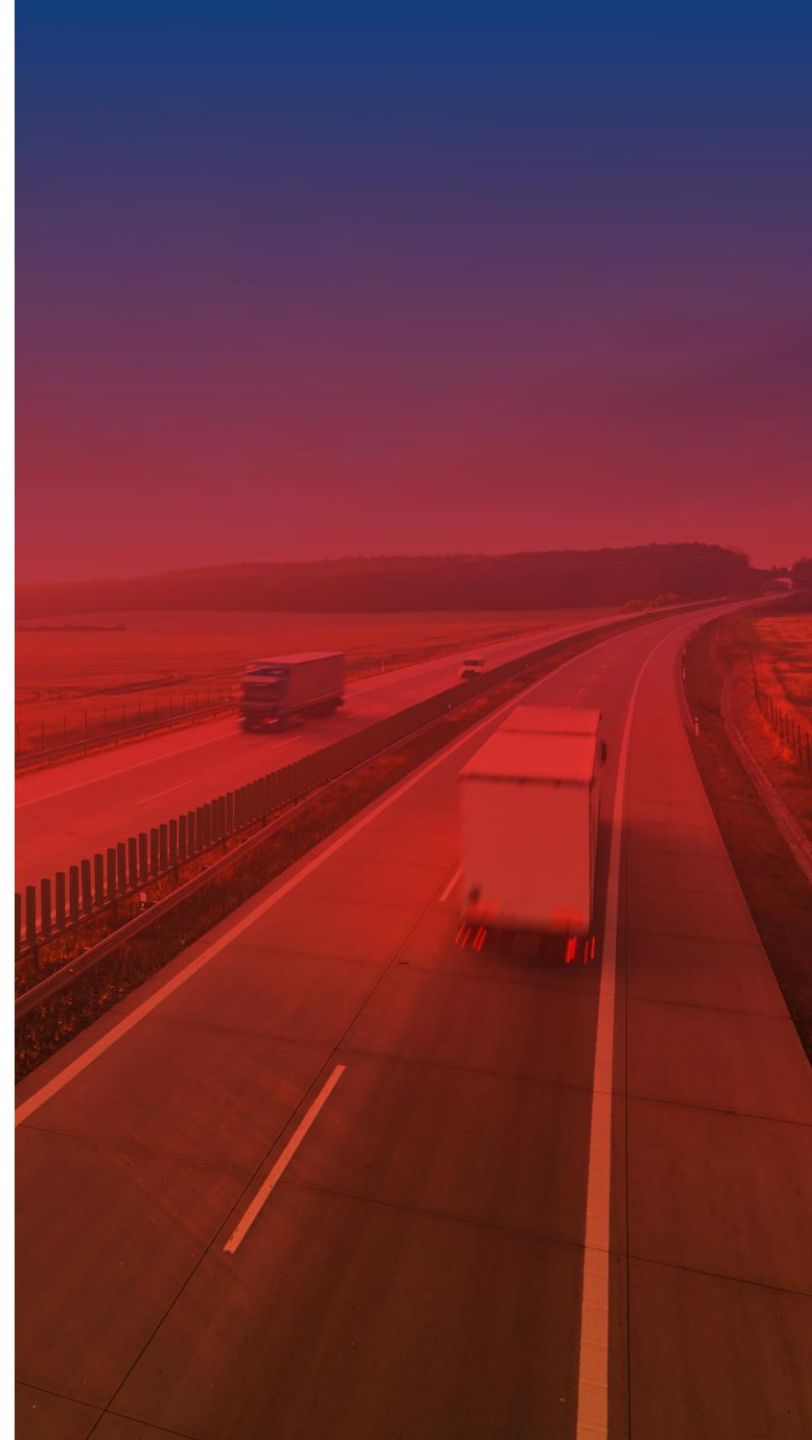

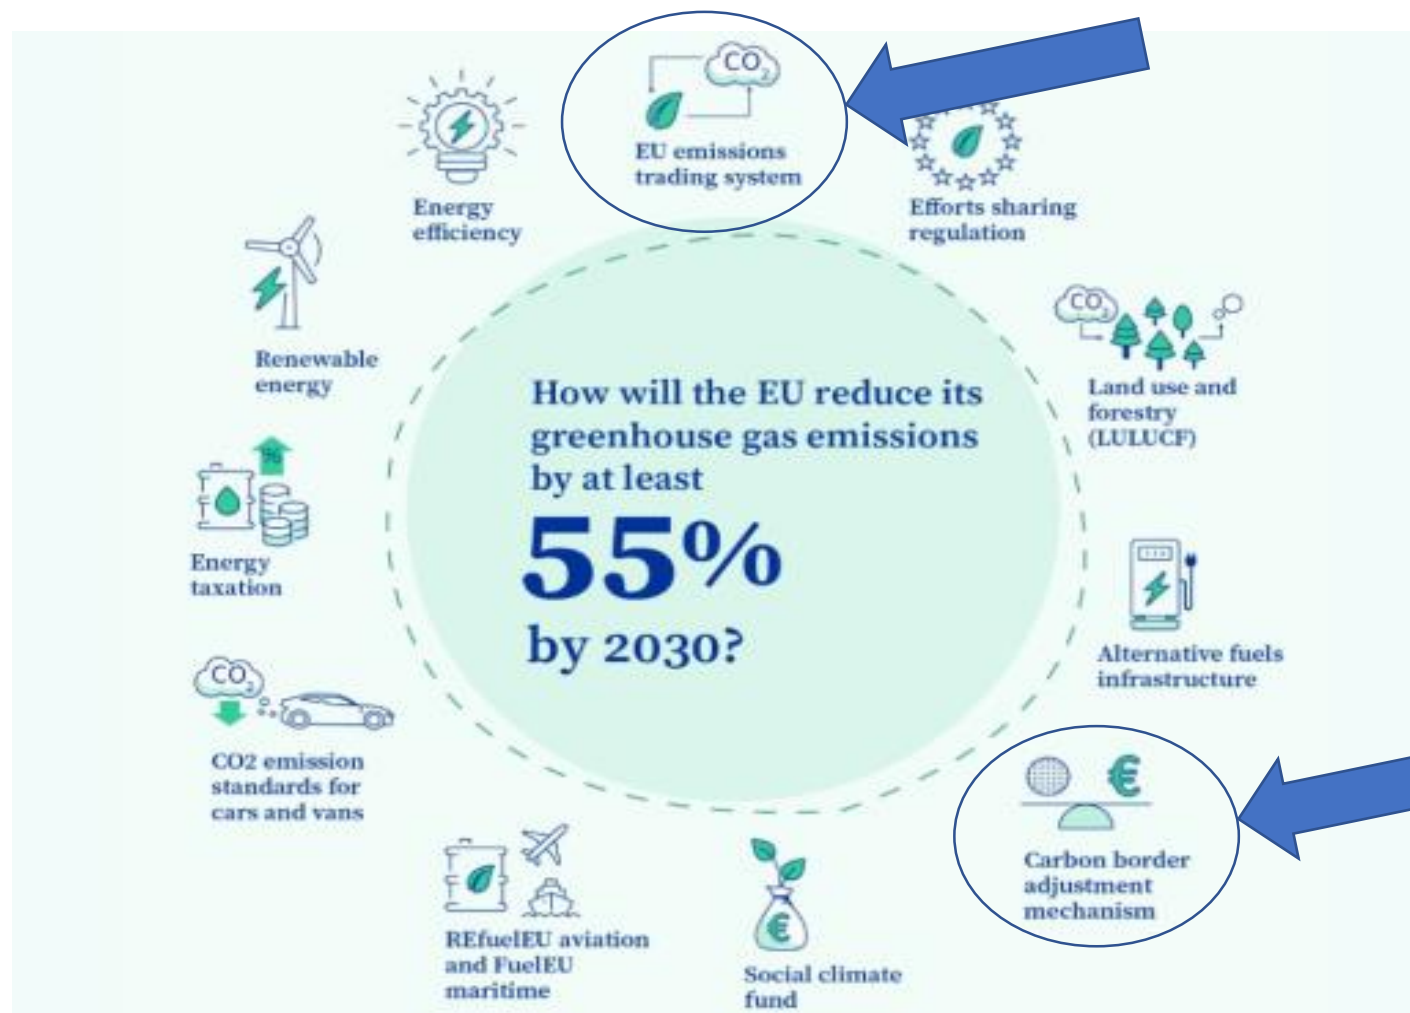

EUROPEAN GREEN DEAL

- New strategy of sustainable development and growth of EU
- Presented by EU in December 2019
- Key figures:
 - The first climate neutral continent by 2050
 - At least 55% less net GHG emissions by 2030, compared to 1990 levels
 - 3 billion trees to be planted in the EU by 2030
- Set of regulations, including various closely related areas such as climate, environment, energy, transport, industry, agriculture, sustainable finance

FIT FOR 55

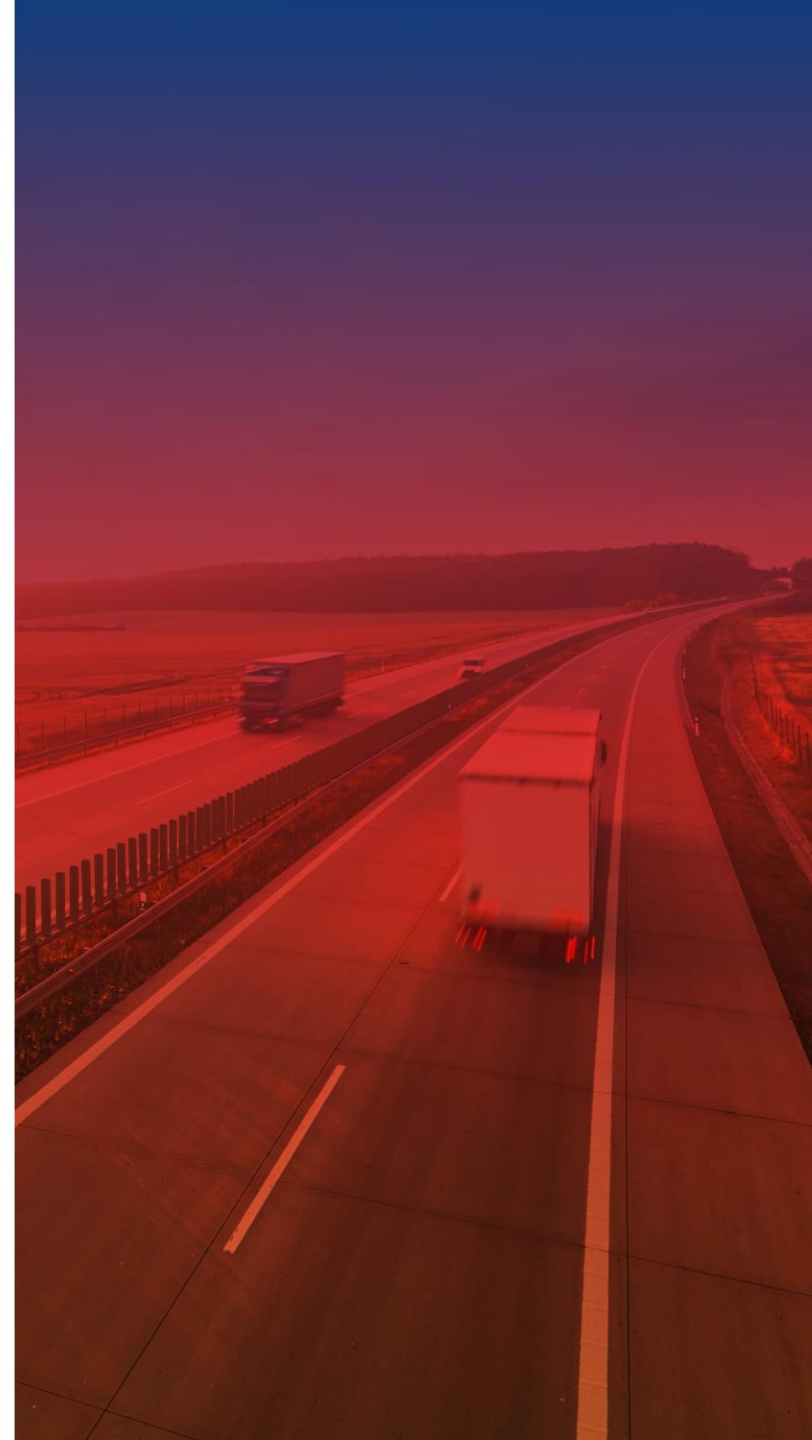

CBAM vs. EU ETS

Production in the EU

Production outside the EU

CBAM TIMELINE

● **2005**

ETS comes into force

The system places annual caps on emissions and creates a carbon market for trading of emissions permits.

● **January 2026**

Permanent system enters into force

Importers declare the emissions embedded in its imports and surrenders the corresponding number of certificates each year. Certificates are priced based on weekly ETS allowances.

● **October 2023**

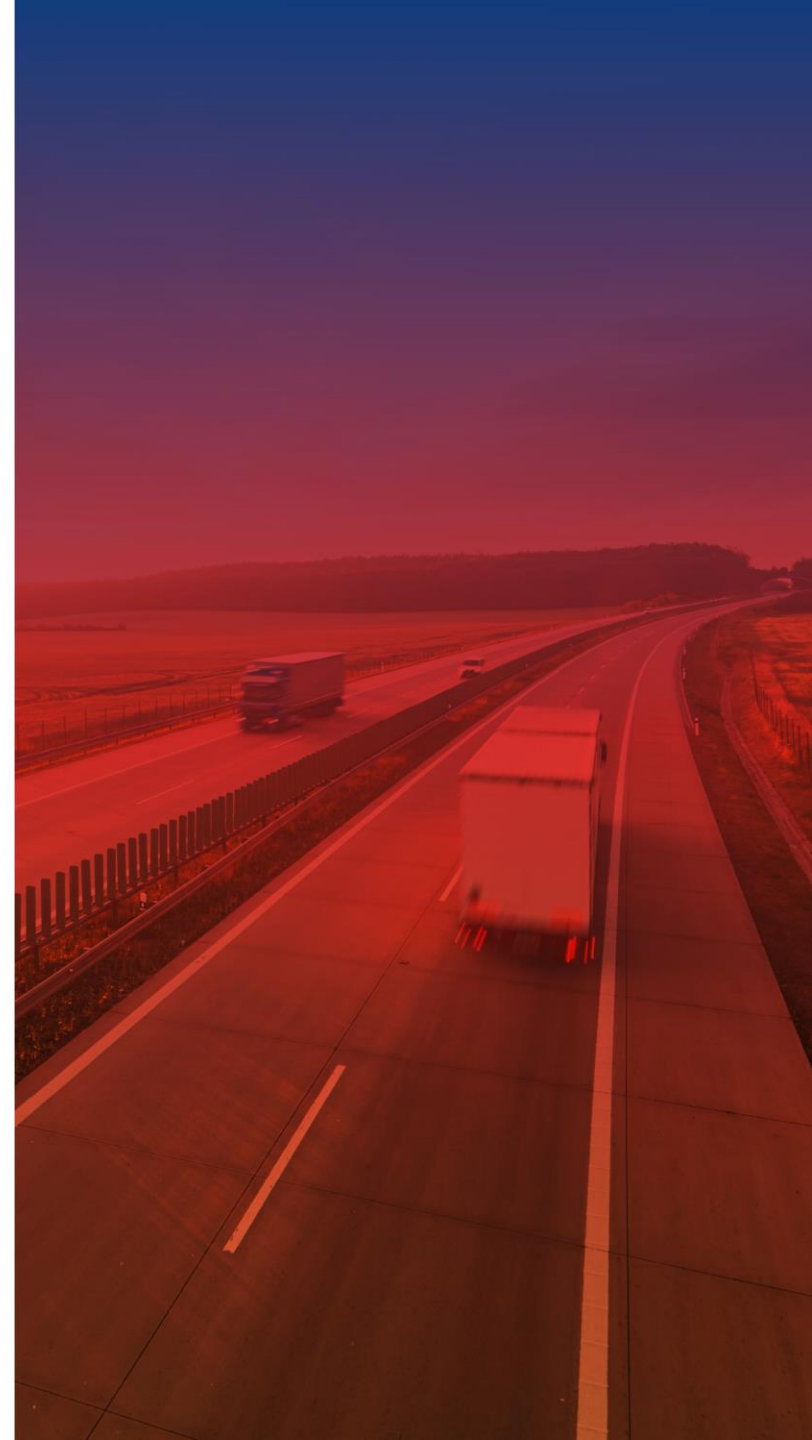

Trial period

Importers of goods in the scope of the new rules will only have to report GHG embedded in their imports (direct and indirect emissions) without making any financial payments or adjustments.

● **2026 - 2034**

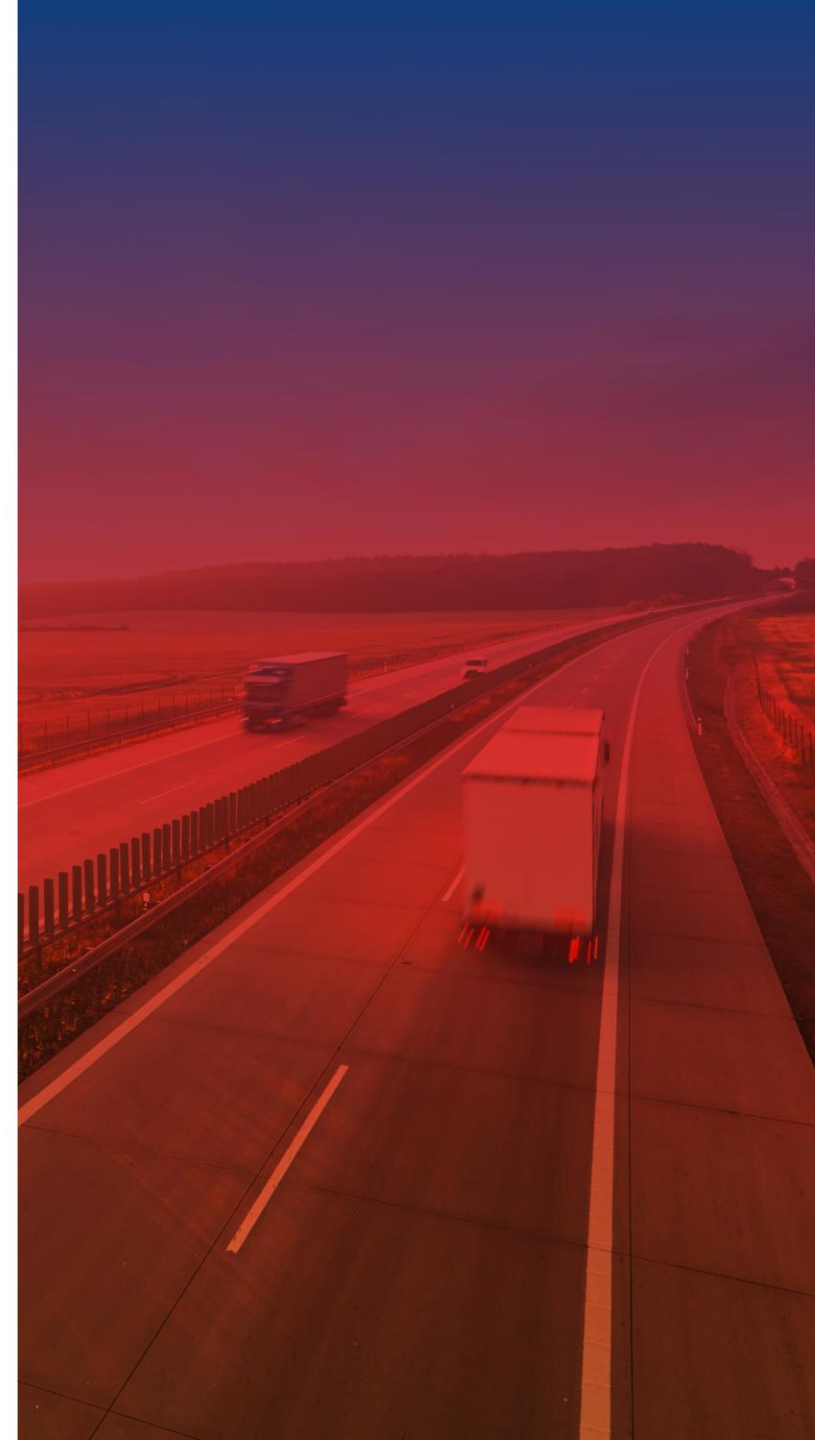

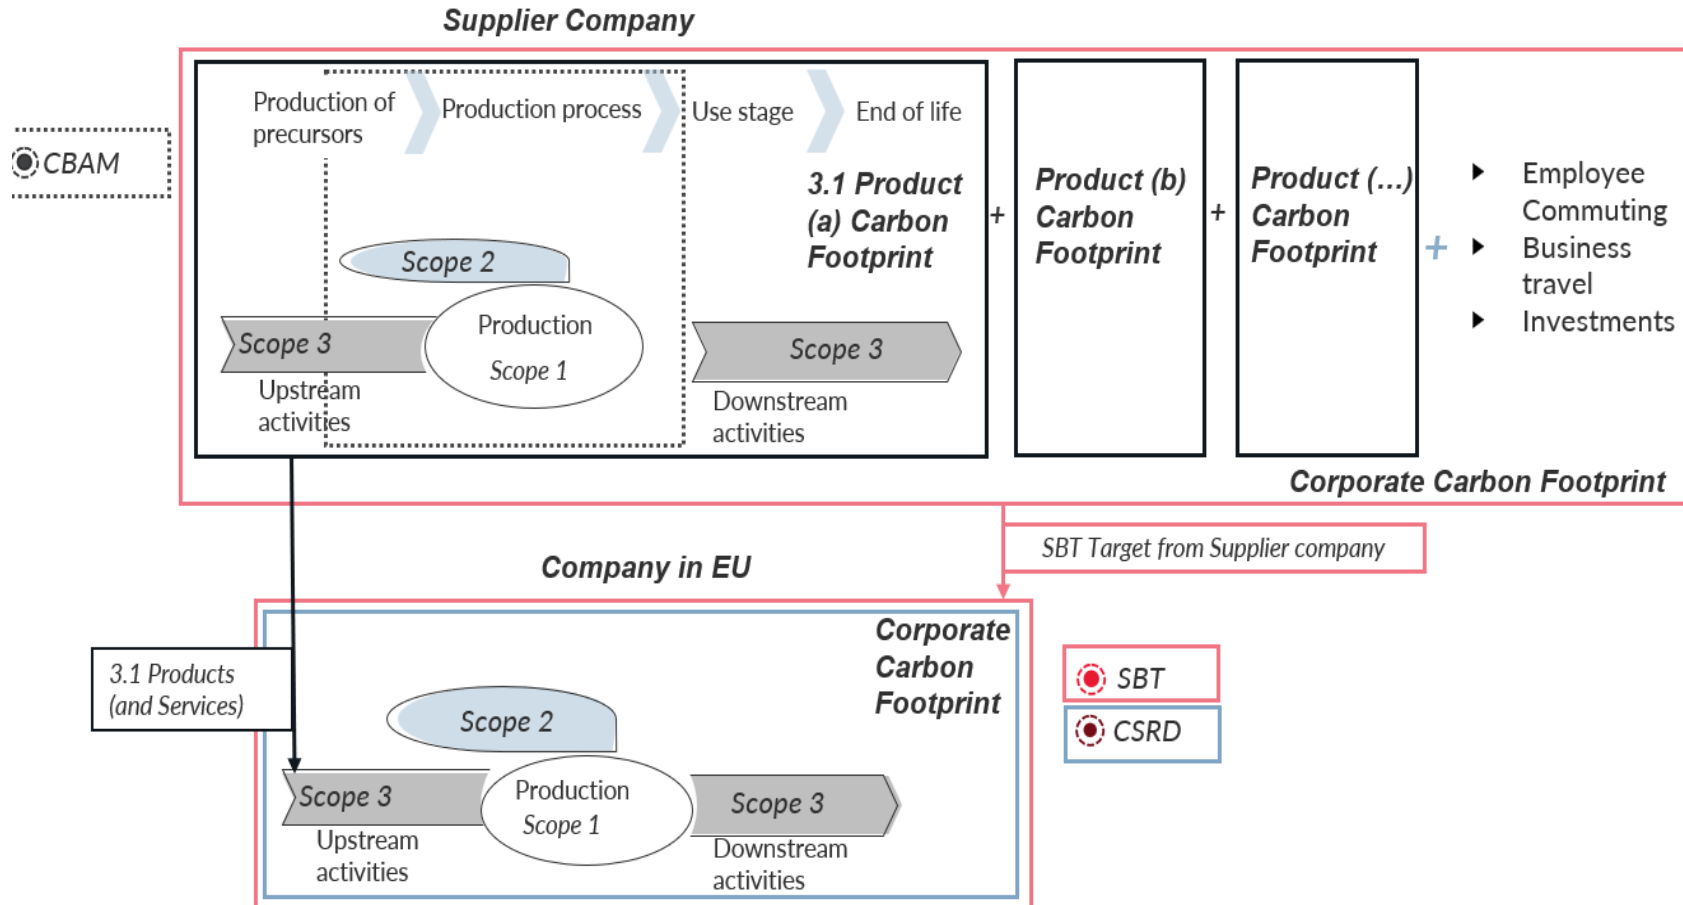

Full implementation

The phasing out of the free allocation under the EU ETS will take place in parallel with the phasing-in of CBAM.

CCIS ACTIVITIES

CBAM SECTORIAL TRAININGS

- With a support of Ministry of Environmental Protection and Swiss C4TP Program
- One-day specialized training "CBAM – How to prepare and what are the obligations"
- 8 trainings from October 2023-January 2024, 6 cities
- More than 400 participants from 160 companies

RESPONSIBLE BUSINESS HUB SERBIA

In order to improve the ability of suppliers based in Serbia to adapt and comply with new regulations and requirements, the Serbian Chamber of Commerce and Industry in cooperation with the German Organization for International Cooperation (GIZ) launched the first service center (Responsible Business Hub – RBH).

Implemented by:

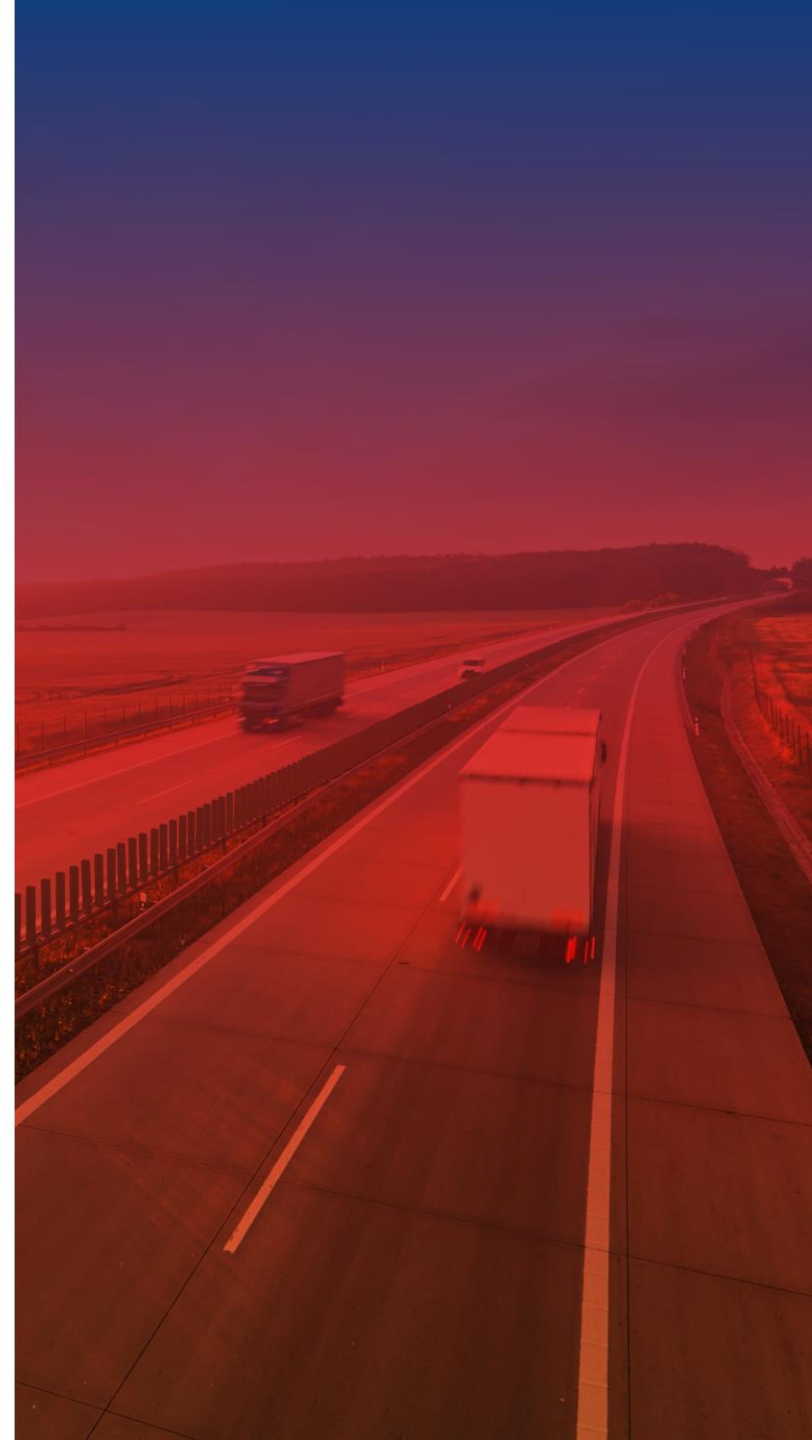

giz Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH

IGS INITIATIVE FOR GLOBAL SOLIDARITY

CHAMBER OF COMMERCE AND INDUSTRY OF SERBIA
1857

**RESPONSIBLE
BUSINESS HUB
SERBIA**
RBH NETWORK

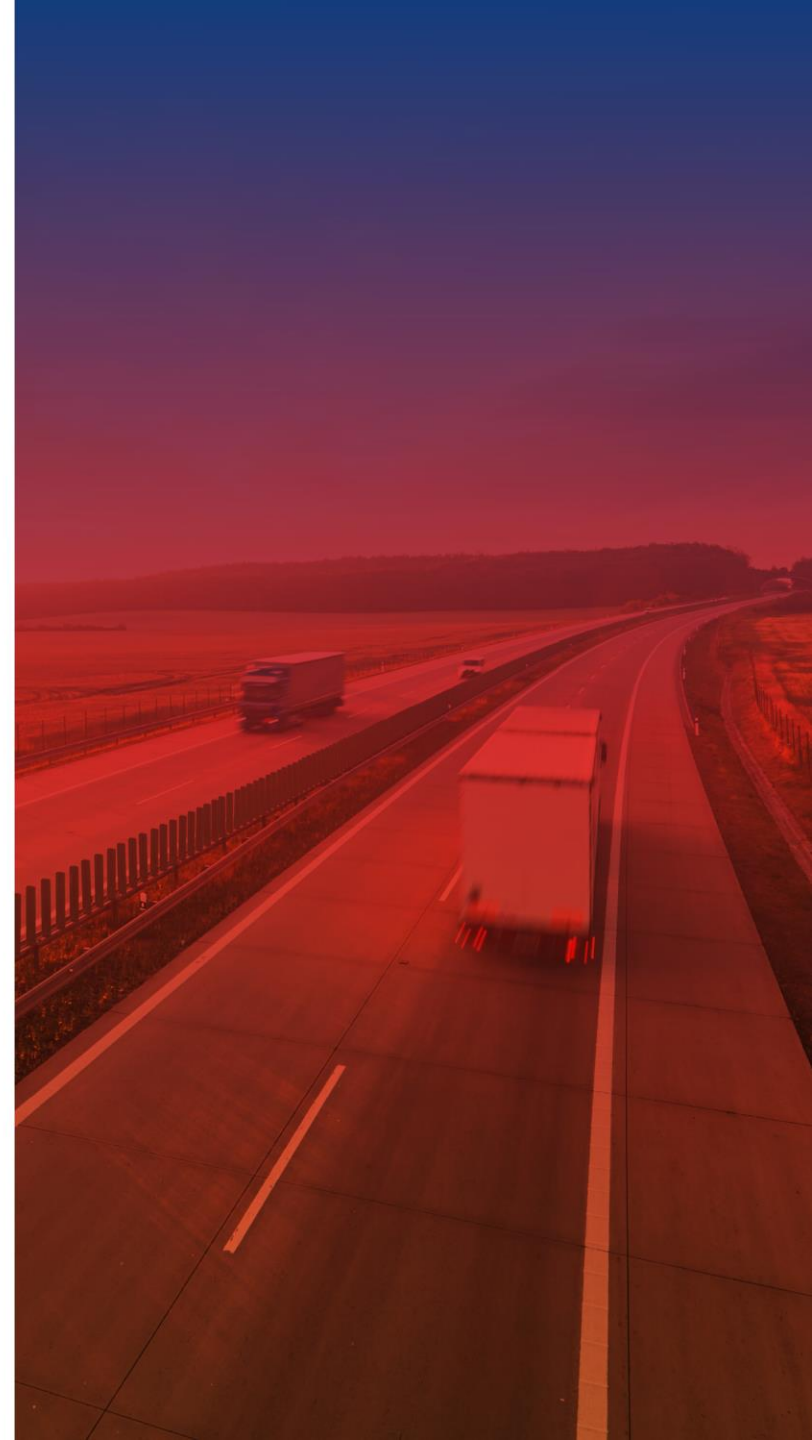

RESPONSIBLE BUSINESS HUB SERBIA

Mission:

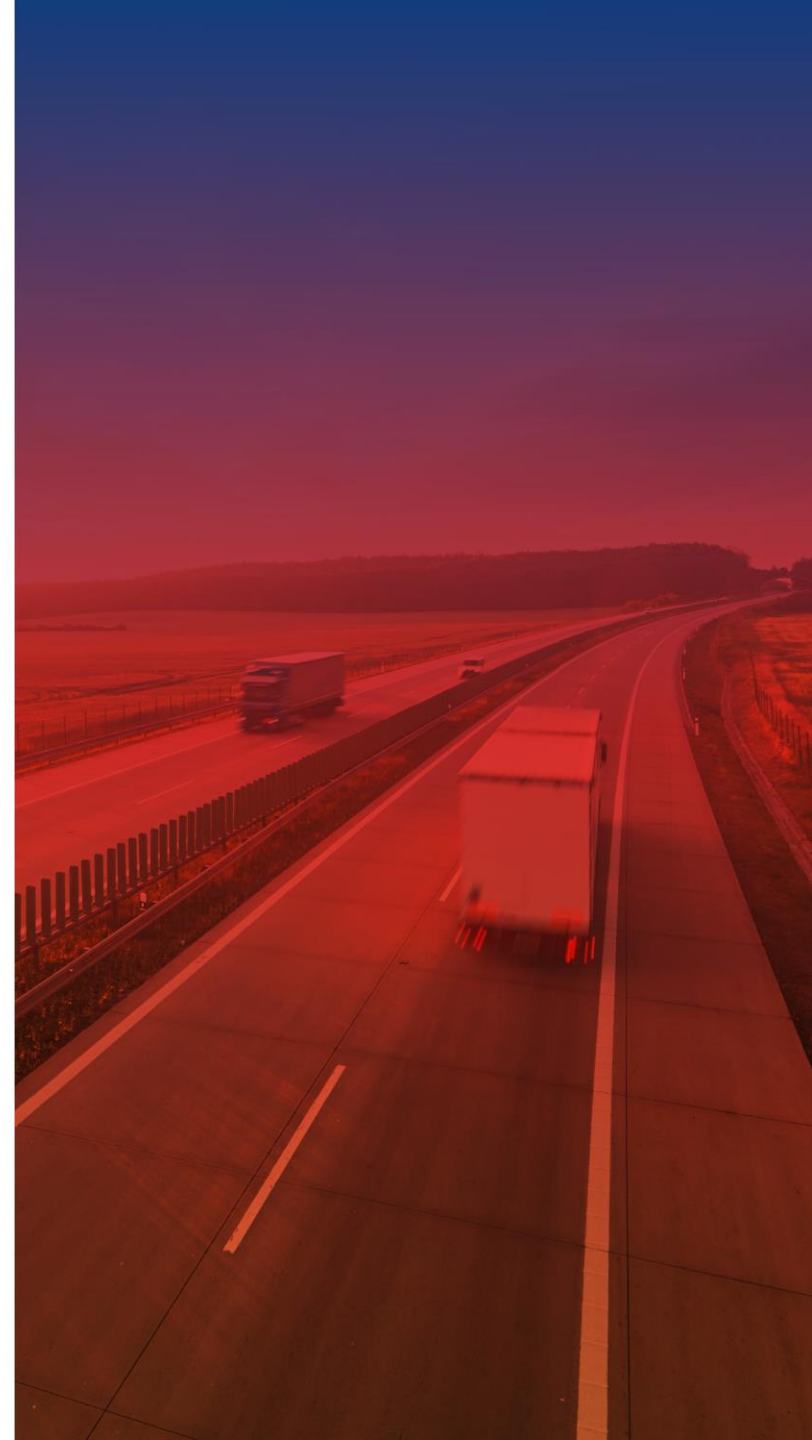

- To improve the ability of the private sector to understand and prepare for the new sustainable standards of the Due Diligence in Supply Chains Act
- To improve the competitiveness, sustainability, and capacity of Serbian exporters in the field of human rights protection and ecology

RBH – Carbon Management Training

- First training in September 2023 & second training in February 2024
- 20 + 15 participants
- Pilot projects with companies
- Building up network of RBH consultants

GREEN ACADEMY CARAVAN Nov-Dec 2023

”Key challenges for the economy on green transition path – CBAM, decarbonisation, ESG, Due Diligence, monitoring and reporting”

- 12 cities
- More than 400 participants

  

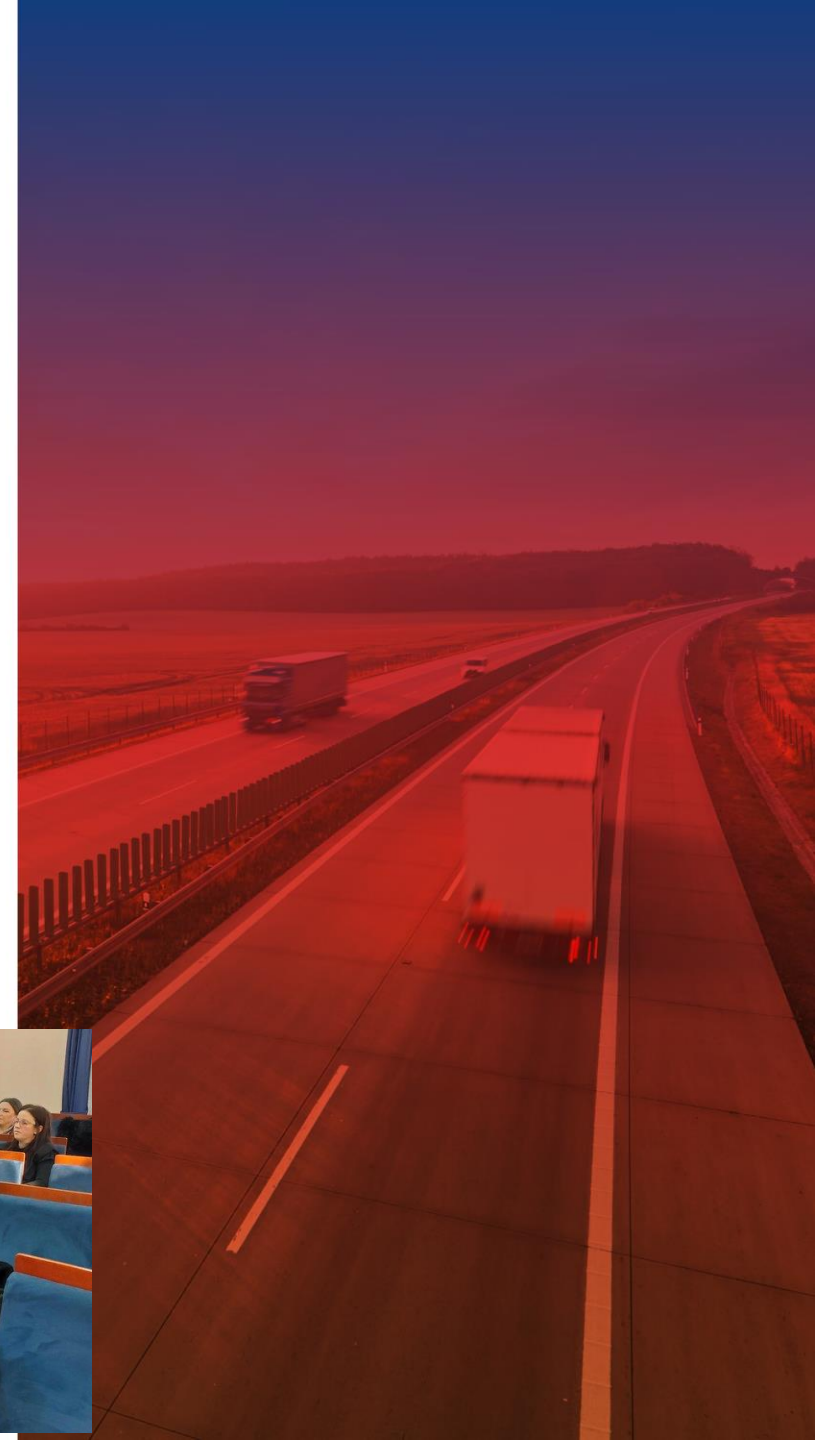

PROGRAM:
ZELENA TRANSFORMACIJA SRPSKE PRIVREDE

BESPLATNI JEDNODNEVNI SEMINARI NA TEMU
“KLJUČNI IZAZOVI ZA PRIVREDU NA PUTU
ZELENE TRANSFORMACIJE: CBAM,
DEKARBONIZACIJA, ESG, DUE DILIGENCE,
MONITORING I IZVEŠTAVANJE”

 SUBOTICA  VALJEVO  UŽICE  KRAGUJEVAC
 LESKOVAC  POŽAREVAC  NOVI SAD  ZAJEČAR
 KRUŠEVAC  KRALJEVO  NIŠ  BEOGRAD

prijave na: akademija@pks.rs

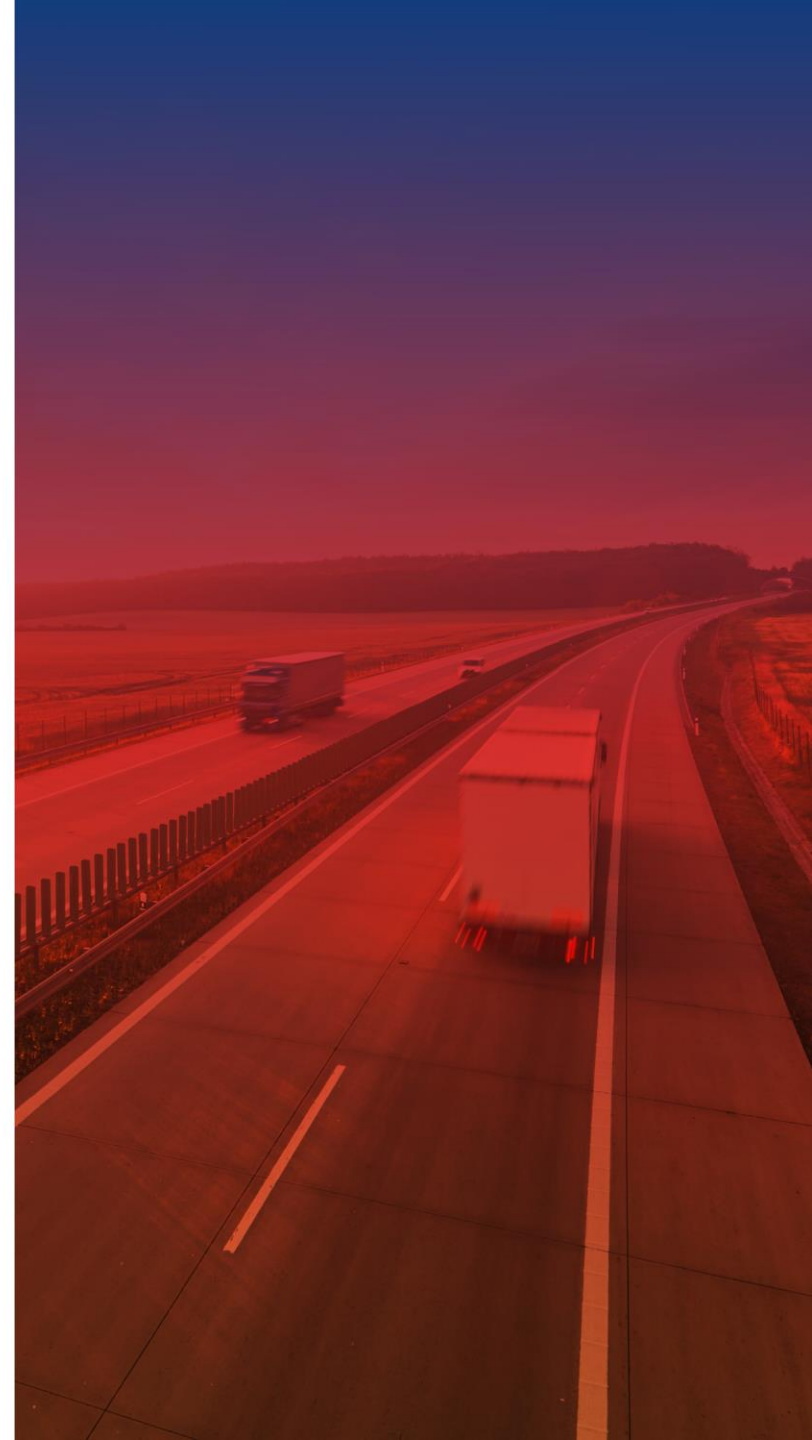

WORKSHOPS "CBAM – How to prepare the report?"

Through CCIS Responsible Business Hub:

- Developing method and materials
- Testing workshop on three groups of companies in December 2023

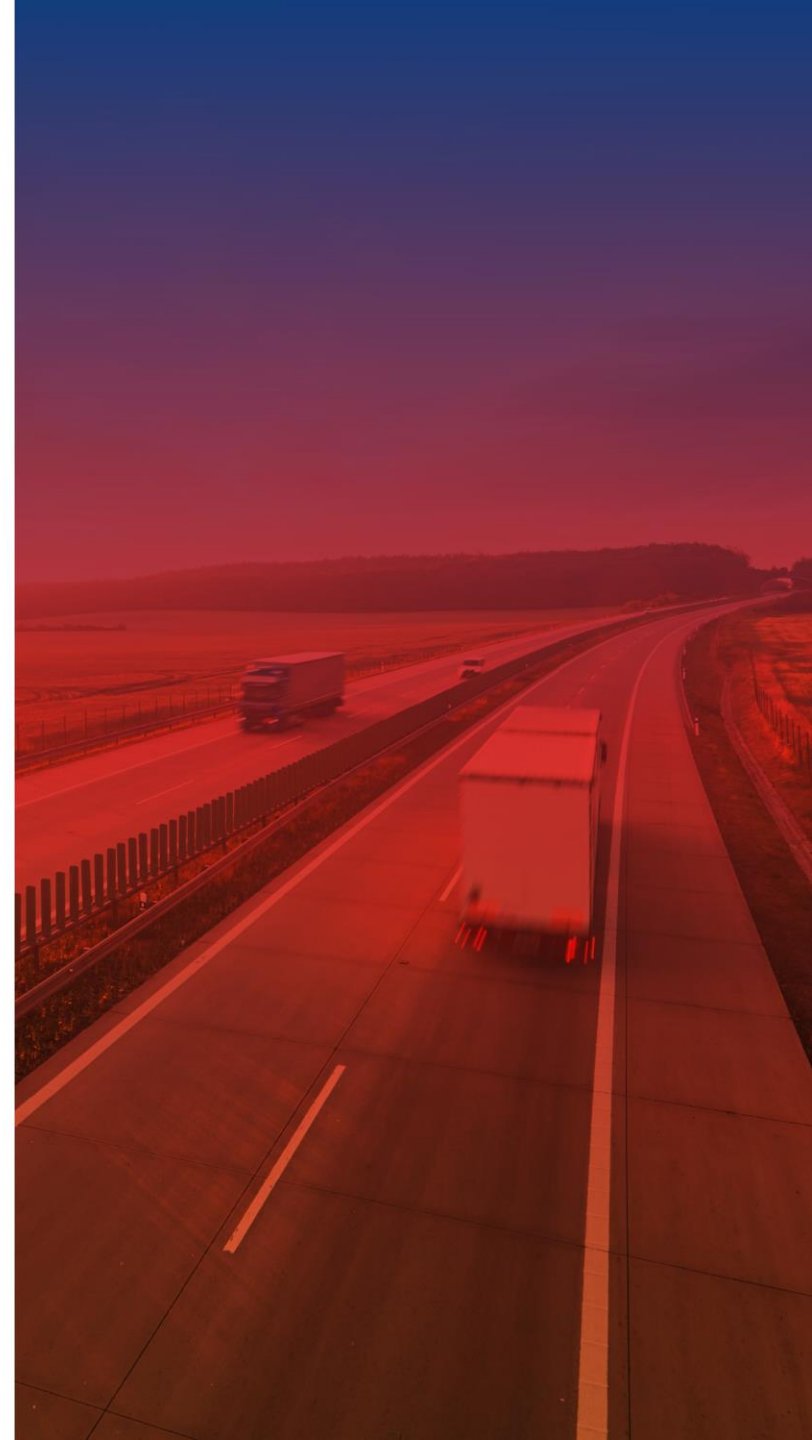

WORKSHOPS "CBAM – How to prepare the report?"

January – May 2024:

- 6 workshops
- 150 participants
- The workshop is interactive – participants are working on their laptops and preparing one example of CBAM report

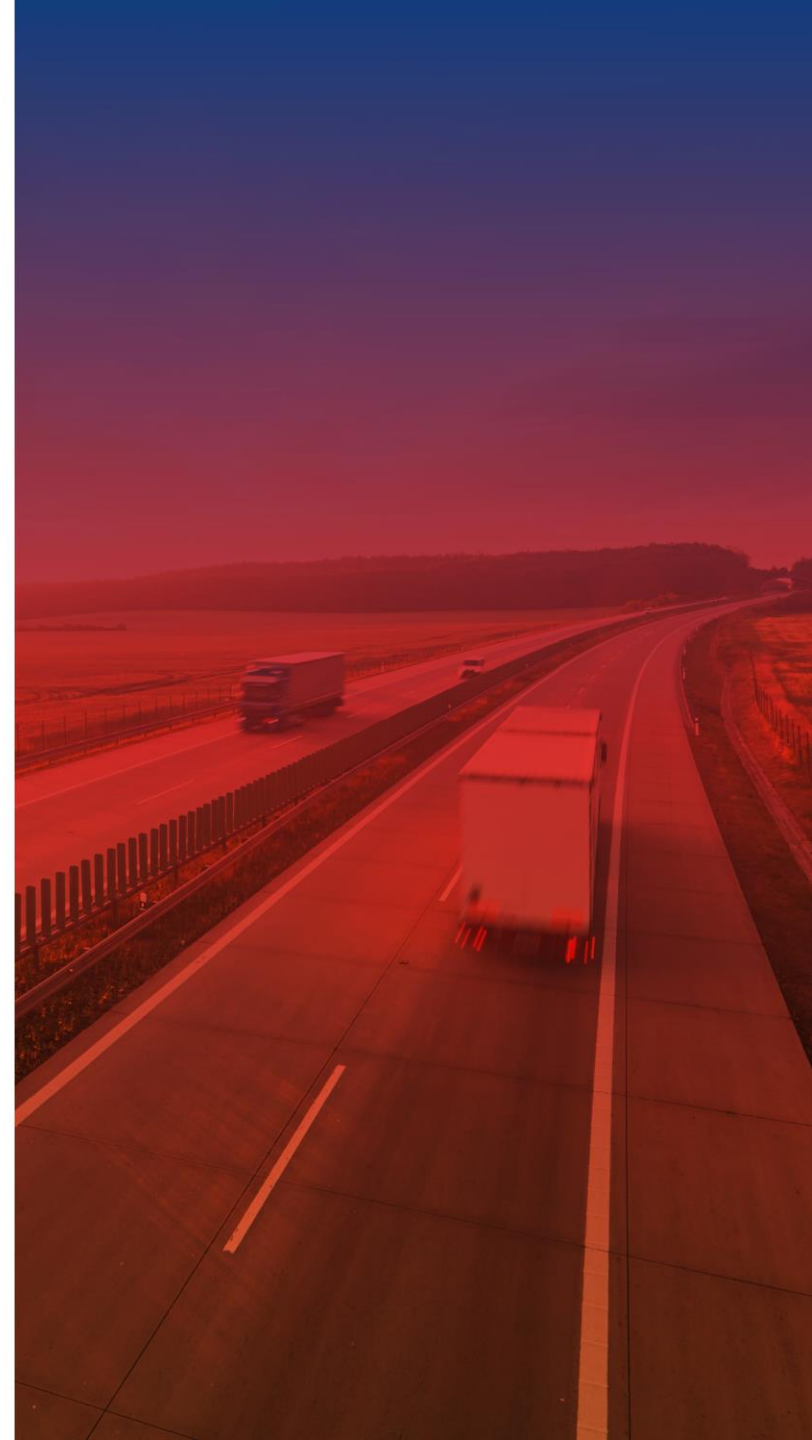

CCIS BUSINESS ACADEMY

GREEN Academy topics:

- CBAM – How to prepare the report
- Implementation of sustainable business (ESG) in the organization
- Product carbon footprint – Guidelines for preparation of CFP study through implementation of standard ISO 14067 and GHG Protocol Product Life Cycle Accounting and Reporting Standard
- Preparation of Product Life Cycle Assessment Study (LCA) according to ISO 14040/14044 and Environmental Product Declarations (EPD) according to ISO 14025
- Reaching carbon neutrality and carbon offsetting

CCIS WEBSITE

- All relevant information and document
- Updated regularly
- cbam@pks.rs – 30 questions from different companies from October 2023

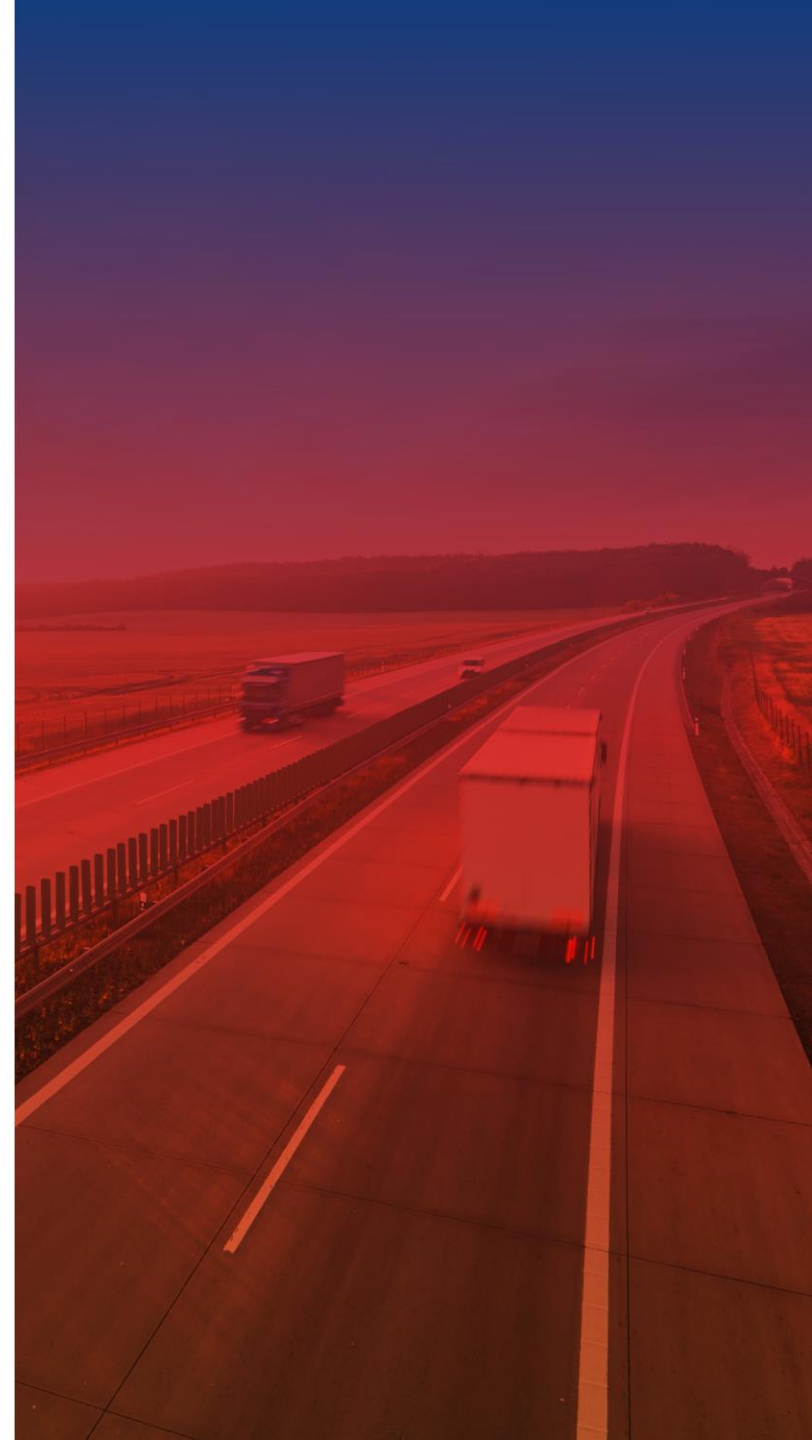

CBAM-Carbon Border Adjustment Mechanism
Механизам прекограничног усклађивања (цене) угљеника

Шта је *CBAM*?

Механизам прекограничног усклађивања (цене) угљеника (*CBAM*) је иницијатива Европске уније (ЕУ) који предвиђа примену истих трошкова угљеника на увезене производе из ЕУ. На овај начин, применом *CBAM* инструмента тежња је да се премештањем производње у земље са мање амбициозном политиком донесу на ниво ЕУ.
