

ABOUT US

Social enterprise Radanska RUŽA from Lebane, Serbia, makes products that are a combination of excellent natural potential and human resources, delicious and healthy fruits and vegetables harvested on the slopes of Radan Mountain, and the centuries-old tradition of the housewife in the production of winter vegetables. Fruits and vegetables are selected and processed by hand, on ordinary stoves in small pots, in a large shared kitchen. According to tradition and old recipes, winter products are made without preservatives and other additives, pasteurized and packed in glass packaging.

OUR MISSION

Our products are not made by machines, our products are made by people. **QUALITY BEFORE QUANTITY**
